

Polycom® Voice Products

The right solution for any business communication need

Your conference room phone is one of your most valuable assets. And regardless of the size of your conference room, calls are productive and efficient when participants on all points of the call can hear clear, crisp voice quality – even during simultaneous conversations. With Polycom's patented Acoustic Clarity Technology, your conversations flow naturally and get everyone talking.

From desktop to large integrated auditorium systems, or from analog to digital to IP networks with multiple protocols, Polycom has the right voice solution to enhance any business communication need. Why waste time and money or even lose business due to poor phone technology when you could have a Polycom conference phone?

Polycom – The Market Leader Worldwide
With 93 percent market share*, Polycom has been the worldwide conference phone market leader since 1992. Now we're redefining

voice conferencing standards again with the new SoundStation VTX 1000™. It's the world's first conference phone that automatically adapts to each meeting environment, providing high fidelity voice clarity for all participants whether they're two feet or 20 feet away from the microphone. And, as the world's first wideband conference phone, the SoundStation VTX 1000 delivers twice the bandwidth as conventional telephones for lifelike clarity.

Best-in-class choices for The Polycom Office™

With integrated video, voice, data, and Web capabilities, The Polycom Office is the only solution that offers you an easy way to connect, conference, and collaborate any way you want. The Polycom Office is our commitment to making distance communications as natural and interactive as being there. Work

faster, smarter, and better with Polycom voice products and The Polycom Office.

For unsurpassed voice clarity and increased productivity in your conference rooms and offices, there's only one clear choice: Polycom. To learn more about Polycom conference solutions and The Polycom Office, go to www.polycom.com.
