

Most Effective and Innovative Presentation Tool

Digital Class™

The Most User-friendly Technology
- Learn to use in only 5 mins

Say Goodbye to Traditional Whiteboard Problems

No more wiping off the whiteboard!

No more dried whiteboard pens and messy residue!

No more turning your back on your audience!

Write and recall notes on pre-drawn templates or on any computer application!

Revolutionary Electronic Whiteboard with Interactive LCD Writing Panel

Podium Style

Desktop Style

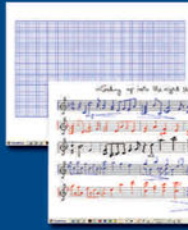

1. Smooth and Fine Writing Display

With perfectly smooth and clean pen-strokes, *Digital Class*™ assures better quality script than those on the traditional whiteboard. The Line Rendering technology enables you to truly and completely display your immediate penmanship.

2. One Click into Different Templates

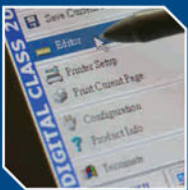

Various backgrounds, such as blackboard, whiteboard, manuscript paper, music sheet or English notebook, can be selected with just one click.

3. Writes on All Applications

You can write on all computer applications, such as lecture programs, internet web documents or any other MS Office Applications (Power Point, Word, Excel), etc.

4. Easy & Instinctive Interface

Retrieve any files you want, just like you would when using the computer. To use an electronic touching pen as a magic wand, touch the tablet at the icons you want and write the notes as naturally as you would on a piece of paper. You're sure to learn it within 5 minutes!

5. A Big Screen that's Within Reach

Just touch the tablet to highlight the points you want to explain and images can be projected onto any available size of screen. You can face the audience all the time, thus you won't be left not knowing what is happening behind your back.

6. Record, Download and Distribute at Anytime

All the details of the presentation are recorded in "motion capture" together with the presenter's voice for playback at any time. The volume of the recorded file is so small (10-12MB/hr at the rate of 20 pages per presentation draft) that it can be easily downloaded and distributed in digital format.

7. Specifications of *Digital Class*™
